

LAKSHYA

Innovation Support Program (2013)

Abstract Guidelines

Font size: 12

Line Spacing: Double

Margins: 0.5 inch on all sides

Problem statement: What is it you are trying to solve? How severe is the issue? Support your argument with reliable statistical/experimental data.

Idea/Innovative Solution: State the fundamental concept you are going to use while developing your idea.

- What solutions are available today and how is your idea better?
- Clearly state technical details and calculations of proposed innovative technology.
- Support your abstract with images, models and diagrams wherever possible.

End user: Who is the end user? (common citizen, the farmer, the military etc.)

Cost: Give an overall cost estimate of prototype and a break-up of materials involved, quantities, and costs. Consider all costs – equipment, shipping, labour etc. **The Rs.40,000 being provided is only initial seed money and a team's project cost estimate can exceed this amount.**

NOTE:

- a. Mention name, branch and year of all team members in your abstract.
- b. All submitted entries will be in the public domain.
- c. Entries are not open to final year students.
- d. For more information, visit www.TheLakshyaFoundation.org/innovation
